FEATURED FLAGSHIP ARCHITECTURES

Real-Time Android ASL Gesture Interpreter (Edge AI & Computer Vision)

`Java, Android CameraX, Google MediaPipe, TensorFlow Lite, SQLite, Android TTS`

- Architected an on-device American Sign Language translator: captures high-FPS live video via CameraX, extracts **21 3D hand landmarks** with Google MediaPipe, and classifies gestures in real-time using a custom quantized **TensorFlow Lite neural network** (`asl_model.tflite`).
- Engineered custom `OverlayView` drawing real-time AR skeletal bones over detected hands, built dynamic SQLite sentence builder, and integrated multi-lingual Text-to-Speech synthesis for natural vocal playback.

MenuCanvas Suite (Multi-Branch POS & Kitchen Dispatch with WooCommerce Sync)

`Electron, React, Node.js, ESC/POS Thermal Printing, WooCommerce REST API, SQLite`

- Engineered cross-platform restaurant ordering, inventory, and table management desktop application with Electron and React. Features multi-printer kitchen thermal routing and live order status boards.
- Built bidirectional background synchronization with client's WooCommerce web storefront, synchronizing inventory stock and online orders in real-time without database contention.

QRlytics Dynamic QR Attribution & Analytics Platform

`Full-Stack SaaS, Dynamic Redirect Engine, Device Attribution, Geolocation Analytics`

- Developed dynamic QR code campaign tracking SaaS allowing instant target destination switching without reprinting physical collateral, featuring real-time city-level scan geolocation and user device telemetry.

Production n8n Workflow Automation Hub (81+ Deployed Workflows)

`n8n, DataForSEO, Slack, WhatsApp Cloud API, OpenAI, Google Sheets, Jira REST API`

- **SERP Rank Tracker:** Automated daily 1:00 AM UTC batch queries across hundreds of target keywords via DataForSEO, detecting rank anomalies (±3 positions) and firing instant Slack alerts.
- **SEO Content Syndicator:** Ingests markdown drafts, structures SEO meta tags via OpenAI, publishes directly via WordPress REST API, and syndicates assets across LinkedIn and Meta.
- **WhatsApp CRM Helpdesk:** Inbound ticket triage matching customer profiles in MongoDB, automating intent routing, and appending conversational logs to Google Sheets.

Commander Safeguard Interactive Web Experience & Audio Engine

`HTML5 Canvas, Sprite Animation Pipeline, WebAudio API, Responsive Event Loop`

- Engineered high-performance multimedia character game experience featuring custom multi-frame sprite sheet cycles, multi-track audio playback, dynamic sound effect triggers, and responsive stage scaling.

Enterprise Shopify & High-Scale E-Commerce (SKL Watches & Custom Brands)

`Shopify Liquid, Custom WooCommerce REST API, AJAX Drawer Cart, Split Stripe Billing`

- Developed bespoke Shopify Liquid templates and high-throughput WooCommerce checkout platforms with sub-second response times, multi-currency switching, and automated multi-warehouse inventory synchronization.
